| Section 2. Compo | Sidon and imonitation | in our ingredients | *** | |
|--------------------------|------------------------|--------------------------|---------|---|
| Name | CAS# | % by Weight | TLV/PEL | LCss/LDss |
| No hazardous ingredient. | | | | |
| Section 3. Hazard | s Identification | 7. | | |
| Routes of Entry | Remove clothing and la | aunder. Wipe off excess, | | cessary. Skin: Highly unlikely - er. Ingestion: Highly unlikely - Do elikely - Place person in well |

ventilated area/location. Seek medical attention if necessary. Potential Acute Health Effects Very slightly to slightly irritating in case of eye contact, of ingestion. Non-corrosive for skin. Non-irritant for skin.

Non-irritant for lungs.

Potential Chronic Health

Effects

Section 2 Composition and Information on Ingredients

Very slightly to slightly irritating in case of skin contact, of eye contact, of ingestion, lungs irritant.

Non-corresive for skin. Non-sensitizer for skin. Non-permeator by skin.

CARCINOGENIC EFFECTS: None. MUTAGENIC EFFECTS: None. TERATOGENIC EFFECTS: None. The substance is not toxic to blood, kidneys, lungs, the nervous system, the reproductive system, liver, mucous membranes, heart, bladder, spleen, brain, digestive system, lymphatic system, peripheral nervous system, gastrointestinal tract, cardiovascular system, upper respiratory tract, endocrins, immune system.

| Eye Contact | Flush with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. If any irritation |
|------------------------|---|
| | persists, seek medical attention. |
| Skin Contact | NO known EFFECT on skin contact, rinse with water for a few minutes. If any irritation persists, seek medical attention. |
| Hazardous Skin Contact | No additional information. |
| inhalation . | Allow the person to rest in a well ventilated area/location. Seek medical attention if necessary. |
| Hazardous Inhalation | No additional information. |
| ingestion | Do not induce vorniting. Have conscious person drink several glasses of water or milk. If ingested, seek medica advice immediately and show the container or the label. If the person is not breathing, perform mouth-to-mouth resuscitation. |

| Section 5. Fire and E | xplosion Data |
|---|--|
| Flammability of the Product | Combustible at elevated temperatures. |
| Auto-Ignition Temperature | Not determined. |
| Flash Points | OPEN CUP: 198°C (388.4°F) (Cleveland.) |
| Flammable Limits | LOWER: 1% UPPER: 7% |
| Products of Combustion | Products of combustion can include undefined organics, carbon oxides(CO, CO 2), halogenated compounds(HCI), as well as sulfurized compounds(SO2, SO3). |
| Fire Hazards in Presence of Various Substances | Very slightly to slightly flammable in presence of open flames and sparks. Non-flammable in presence of shocks, of heat, of oxidizing materials, of reducing materials, of combustible materials, of organic materials, of metals, of acids, of alkalis, of moisture. |
| Explosion Hazards in Presence of Various Substances | Not considered as a product presenting risks of explosion according to our database. |
| Fire Fighting Media and Instructions | SMALL FIRE: Use DRY chemicals, CO ₂ , water spray or foam. LARGE FIRE: Use water spray, fog or foam. DO NOT use water jet. |
| Special Remarks on Fire Hazards | No additional remark. |
| Special Remarks on Explosion Hazards | No additional remark. |

| Section 6. Acc | idental Release Measures |
|----------------|---|
| Small Spill | Dilute with water and mop up, or absorb with an inert DRY material and place in an appropriate waste disposal container. Finish cleaning by spreading water on the surface and dispose of according to local and regional authority requirements. |
| Large Spill | Combustible material at elevated temperatures. Keep away from heat. Keep away from open flame(s). Keep away from sources of ignition. Stop leak if without risk. Finish cleaning by spreading water on the surface and dispose of material into appropriate waste disposal container(s) according to local and regional authority requirements. |

| Section 7. Ha | andling and Storage | |
|---------------|---|---|
| Handling | After handling, always wash hands thoroughly with soap and water. Do container at temperatures above 49°C (120°F) or in direct sunlight. Ha container tighlity closed in a cool, well-ventilated place. | |
| Storage | Keep container tighlity closed in a cool, well-ventilated place. Keep only storage is required. Use shelves or cabinets sturdy enough to bear the not necessary to strain to reach materials, and that shelves are not over | weight of the chemicals. Be sure that it is |

| Section 9. Physical a | and Chemical Properties | | |
| Physical state and appearance | Liquid. | Odor | Slight |
| Molecular Weight | Not applicable. | Taste | Bland (Slight.) |
| pH (1% soln/water) | 8.9 [Basic.] | Color | Green. (Light.) |
| Boiling Point | >100°C (213.8°F) | | |
| Melting Point | May start to solidify at 5°C (41°F). Weighted at | verage: 0.74°0 | C (33.3°F) |
| Critical Temperature | Not determined. | | |
| Specific Gravity | 0.99 (Water = 1) | | |
| Vapor Pressure | <0.01 mm of Hg (@ 20°C) | | |
| Vapor Density | >5 (Air = 1) | | |
| Volatility | 0% (v/v). Weighted average: 0.207% (v/v) | | |
| Odor Threshold | Not determined. | | 1 |
| Evaporation rate | <0.01 [Butyl acetate.] | | |
| Viscosity | SUS @ 100°F = 1410 cSt @ 40°C = 265 | | |
| Water/Oil Dist. Coeff. | The product is much more soluble in water. | | |
| Ionicity (in Water) | Non-ionic. | | |
| Dispersion Properties | Partially dispersed in methanol. Very slightly dispersed in n-octanol, acetone. Is not dispersed in diethyl ether. See solubility in water, methanol. | | |
| Solubility | Easily soluble in hot water. Soluble in cold water. Partially soluble in methanol. Very slightly soluble in acetone. Insoluble in diethyl ether, n-octanol. | | |

| The product is stable. | | |
|--|--|--|
| No additional remark. | | |
| Incompatibility with various substances Slightly reactive to reactive with acids. Very slightly to slightly reactive with metals(magnesium), alkalis. Non-reactive with reducing agents, combustible materials, organic materials, moisture. | | |
| Short term hazardous decomposition products are unlikely. Long term hazardous decomposition products are unlikely. Decomposition can result in release of undefined organics, carbon oxides(CO, CO 2), chlorinated compounds(HCI), as well as sulfur oxides(SO ₂ , SO ₃). | | |
| | | |

| Section 11. Toxicological Information | | | |
|---------------------------------------|---|--|--|
| Toxicity to Animals | Acute oral toxicity (LD50); >5000 mg/kg (Mouse) (Calculated value for the mixture). Acute dermal toxicity (LD50):>4000 mg/kg (Rabbit) (Calculated value for the mixture). LC50: Not determined. | | |
| Chronic Effects on Humans | The substance is not toxic to blood, kidneys, lungs, the nervous system, the reproductive system, liver, mucous membranes, heart, bladder, spleen, brain, digestive system, lymphatic system, peripheral nervous system, gastro-intestinal tract, cardiovascular system, upper respiratory tract, endocrins, immune system. | | |
| Other Toxic Effects on Humans | Very slightly to slightly irritating in case of eye contact, of ingestion. Non-corrosive for skin. Non-irritant for skin. | | |

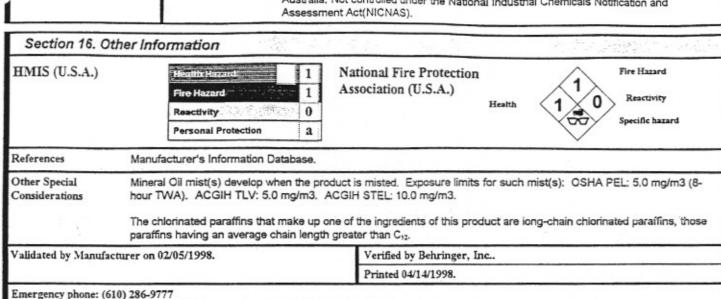

Physical Chemical Comments Not determined.

| Behringer's 730 | Page Number: 4 |
|---|---|
| Special Remarks on Toxicity to Animals | No additional remark. |
| Special Remarks on Chronic Effects on Humans | No additional remark. |
| Special Remarks on other Toxic Effects on Humans | No additional remark. |
| Section 12. Ecologic | cal Information |
| Ecotoxicity | Not determined to be an ecotoxin. |
| BOD5 and COD | Not determined. |
| Products of Biodegradation | Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise. This product is stable. Products of biodegradation most likely are undefined organics and carbon oxides(CO, CO ₂), as well as chlorinated hydrocarbons and sulfur compounds(SO ₂ , SO ₃). |
| Toxicity of the Products of Biodegradation | The products of degradation are non-toxic. |
| Special Remarks on the Products of Biodegradation | No additional remark. |
| | |
| Section 13. Disposa | l Considerations |
| | Recycle to process, if possible. Absorb with an inert material and put the spilled material in an appropriate waste disposal. Consult your local or regional authorities. In accordance with local and federal regulations. |
