Section 4: FIRST AID MEASURES

If Inhaled: If over exposure occurs leave exposure area immediately. If irritation persists, seek medical advice.

If on skin: Gently flush affected area with water. Seek medical attention if irritation develops. Launder clothing before reuse.

If in eyes: Reddening may develop. Immediately rinse the eye with large quantities of cool water; continue 10-15 minutes or until the material has been removed; be sure to remove contact lenses, if present, and to lift upper and lower lids during rinsing. Get medical attention if irritation persists.

Section 4: FIRST AID MEASURES - continued

First Aid Facilities: Eye Wash Station or treatment recommended.

Advice to Doctor: Treat symptomatically.

Section 5: FIRE FIGHTING MEASURES

Flammability: FLAMMABLE PROPELLANT. NFPA Level 1 – Aerosol. Non flammable foam.

Flash Point: Not available

Suitable Extinguishing Media: Use dry chemical, CO₂, water spray or “alcohol” foam.

Extinguishing Media to Avoid: High volume jet water. Do not use direct stream of water because the flammable portion will float and can be reignited.

Special Exposure Hazards: In event of fire created carbon oxides may be formed.

Special Protective Equipment: Firefighters should wear self-contained breathing apparatus and full fire-fighting turn-out gear.

Section 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions: Use Personal Protection Recommended in Section 8

Environmental Precautions: Prevent runoff from entering drains, sewers or waterways.

Method for Containment: Shut off all sources of ignition if possible. Keep containers cool with water spray to prevent rupture. Ventilate area. Dike or soak up with inert absorbent material.

Method for Clean Up: For leaks and spills that have not ignited, water spray can be used to disperse the flammable vapor. Dilute foam with water and rinse into sanitary sewer system or dispose into suitable container.

Section 7: HANDLING AND STORAGE

Handling: Keep out of reach of children. Before use carefully read the product label. Use of safe work practices are recommended to avoid eyes or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated area (eg. If container is damaged). Do not expose can to heat above 50°C and open sources of ignition.

Storage: Store in cool, dry, well ventilated area, removed from oxidizing agents, acids and foodstuffs. Do not store in direct sunlight. Ensure containers are adequately labeled and protected from physical damage when not in use.

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION
